

Car Seat Safety Checks

You have the power to make a life-saving difference for your child's safety while riding in a car.

Car crashes are the leading cause of death among children, but the proper car seat and installation can provide the protection your child needs.

We encourage you to reach out to a local certified safety seat technician for a free appointment to install your child's car seat or confirm the placement. And remember, as your child grows, so does the need and requirement of the car seat to keep him or her safe. Visit the Highway Traffic Safety Administration website for important information on car seats and boosters.
